Fly, 1667.

A

Prognostication for the Year of Our Lord God, 1667.

Wherein we have a Tide-Table, the time of the Eclipse for this Year, with divers observations for Phytick, Husbandry, and Gardening; and also for making all sorts of Bonds and Bils, Acquittances, Wils, and Indentures; with High-waies and Fairs.

CALCULATED

For the Meridian of *Kings-Lyn*, where the Pole is elevated 52 Degrees, and 43. Minuits above the Horizon, and may indifferently serve for any other place within this Kingdom.

LONDON,

Printed by *G. Purslow*, for the Company of Stationers. 1667.

By the help of two following Tables, you may readily find the time of full Sea, or High-water at any of the Havens under-named, without any notable errour: Except the Moons latitude, Land-floods, contrary Winds, &c. somewhat alter the time: The first sheweth the names of certain Havens, the point of the Compass whereunto the Moon coming, maketh High-water.

First, Quinborough, Southampton, Portsmouth, Isle of Wight, Spits, Kentish Knocks.

2. Rochester, Malden, Aberdeen, Redban, the West end of the Nowre.

3. Gravesond, Downs, Rumney, Tenet, Silly half tide, Blackness.

4. Dundee, St. Andrews, Lisbon, St. Lucas, Bell-Isle, Holy-Isle.

5. London, Tinmouth, Hartlepool, Whitebay, Amsterdam, Brittain, Galizia.

6. Barwick, Flamborough-head, Bridlington-Bay, Burdeaux.

7. Scarborough quarter-tide, Lawreness, Severn, Cork-Haven, Dungarvan.

8. Newcastle, Humber, Falmouth, Salley, Dartmouth, Torbay, St. Mallows.

9. Plimouth, Waymouth, Hull, Kings Lyn, Davids-head, Antwerp.

10. Bristol, Foulness, at the Start.

11. Milford, Bridgwater, Lands-end, Waterford, Abermoriek.

12. Portland, Peter-port, Harflew, Hague, St. Magnes, Sound, Dublin, Lambay.

13. Pool, St. Helen, Catness, Orkney, Fair-Isles, Kildein.

14. Needles, Laisto, North and South Forelands.

15. Yarmouth, Dover, Harwich, S. John Deluce, Calice-road.

16. Rye, Winchelsey, Gorend, Thames, Rhodes.

This

This following Table shews the Hour and Minute of Full-Sea, or High-Water, in any of the places before-mentioned.

Begins at the time when the Sun enters into the 1. **point of** Capricorn, **which will be upon the** 11. **day of** Decemb. 17. **paſt** 5. **at night.**

Rules concerning Husbandry.

WHen you would Plant or Graft, conſider where the wind bloweth, if it be in the South it is very good for that purpoſe, but if it be North or Eaſt it is not good.

It is good to plant or graft generally the Moon encreaſing in theſe ſigns, Taurus or Aquarius, in the beginning of the Spring, or latter end of Harveſt.

Plant trees for continuance, when the Moon is in Taurus Leo, or Aquarius.

Cut timber to have it ſound in December or Ianuary, in the

the wane of the Moon in Aquarius or Pisces.

Prune trees and pull off the moss in the moneth of Febr.

Plash hedges, and Lop trees for Fewel, that the heads may the sooner grow again, when the Moon is in Aries or Libra, and in her increase.

Set young Quicksets from September to March.

Remove young Trees in the last quarter of the Moon, when she is in Aries, Libra, Scorpio; and in these Moneths, September, November, February.

Set Vines in February, March or September, especially the Moon in Aries, Libra, Scorpio, in her increase.

Set Rose trees in the midst of February, the Moon increasing.

Cut or prune trees in March or April, the Moon in Taurus, Virgo or Capricorn.

Gather fruit, as Apples, Pears, and the like, at the full Moon the afternoon, the weather being fair and dry.

Cut down Hay presently after the full of the Moon.

Dung ground to prevent growing of weeds, the Moon decreasing.

Sow Carret-seeds about the end of February, or the beginning of March, the Moon increasing. Also sow Onions, and Leeks in February or March, at the wane of the Moon.

Sow Cucumbers and Millions in February or March, or Iune, in a hot and fair day.

Sow Parsley, Fennel, and Anniseed, in February or March, at the full of the Moon.

Sow Margerum, Violets, Time, Rosemary, and Lavender, in February, March, or April, in the increase of the Moon.

Sow Gilliflowers and Wall-flowers in March or April, in the old of the Moon.

Sow Hysop and Savory in March, when the Moon is old.

Sow double Marigolds in February or March, in the increase of the Moon.

Shear Sheep at the increase of the Moon.

The best time to Geld cattel the Moon being in Aries, Sagitarius or Capricorn.

Of Blood-letting, and some other Physical Observations.

IN Youth let blood from the change to the first quarter, in middle-age, from the first quarter to the full. In elder years, from the full to the last quarter. In old age, from the last quarter to the change. But know that under the age of 14. and above the age of 56. it is not good to bleed at all.

Again, in the Canicular or Dog-daies, it is very hurtful to take any Physick at all, unless there be great need; and indeed necessity hath no law: Wherefore in such a case, the disease being desperate, the cure must be adventured.

Take a purgation when the Moon is in Trine, or Sextile aspect with Venus, decreasing in any of these three Signs, Cancer, Scorpio, or Pisces, and it will be sure to work the better, because when a moyst Planet, in a moyst Sign hath such an aspect, the humours in the body are then stirred up and down, and so the better purged out; wherefore in this case, it cannot be amiss to prepare humours by something that is laxative: and let this be done whilst the Moon is either in Gemini, Libra, or Aquarius.

Take a vomit that it may work thoroughly, when the Moon is in Aries, Taurus, or Capricorn: and know that the aspects of the Moon with Saturn, or Mars, or the Moon in Leo, ought to be eschewed in the taking of Medicines.

Finally, if necessity urge no haste, these observations are expedient: for it is a plain truth, that the change of weather upon differing aspects, doth greatly change and alter mens bodies.
